2) Notice of Draftsperson's Patent Drawing Review (PTO-948)
3) Information Disclosure Statement(s) (PTO-1449) Paper No(s) 2
4) Interview Summary (PTO-413) Paper No(s)
5) Notice of Informal Patent Application (PTO-152)
6) Other:

1. Claims 1-27 are presented for examination. Claims 1-6 and 25-27 are withdrawn from the application in response to the restriction requirement. It is requested that applicant in response to this office action explicitly cancel these claims.
2. Applicant's election without traverse of claims 1-16 and 25-27 in Paper No. 6 is acknowledged and the restriction requirement is made final. Claims 1-16 and 25-27 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected groups, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6.
3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
4. Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Earle.
5. Earle (5,359,724) taught the invention substantially as claimed including a method and apparatus for generating a three dimensional view on a user interface of a computer terminal by using a spreadsheet program (see col 2 lines 55-68 and col 17 line 24 et seq.) Applicant's claimed invention differed from the teachings of Earle only by a degree in the data types, e.g. privileged state data versus Earle's sales data. But

Art Unit: 2142

this is no more than a difference in a degree because one skill in the spreadsheet chart generating art would know how to enter for different data types including privileges state data. Also, claimed privilege labels, object labels, and user labels corresponds to the data type and thus are obvious variations of "east", "West", "Sales", "Margin", And "Feb", "Mar" as shown in figure 4d.

6. Claims 18-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
